

We need K-Love in our community. There is nothing negative ever going out to the world from this radio station. Everything is positive, you cannot listen to it without feeling good. People are not going to be detriments to society when they are feeling good. This station is for the whole family. And I guess that says it all. We NEED K-LOVE on the air 24 hours a day. The world needs K-Love. I do not know what LPFM's are, but if they keep K-LOVE from being heard, that is a lose-lose situation.
